Terra Nova '65 45 yrs Reunion - August 28, 2010

Places traveled:

25 US states, Japan, Guam, Philippines, Thailand, Vietnam. (We traveled from Dayton Ohio to get to my last Class of '65 reunion.)

Favorite place traveled and why:

HAWAII! I always wanted to go there. I was stationed there in the Air Force for eight years at Hickam Air Force Base. I was also there for the filming of the movie *Tora! Tora! Tora!* and the TV show *Hawaii 5-0*.

"Bucket" list - things still to do in life:

See my grandson graduate. Have my hand on the throttle and engineer a large steam train engine on a short run.

Other classmates with whom you are still in contact:

None yet!

Favorite teacher and why:

Norman Sanden - he had all the best toys in his classroom.

Favorite class and why:

Wood Shop - a hands-on creative experience with something to show for it.

Fondest memory:

Watching the school pool man and mower man work. I was always impressed by the work ethics of the school staff. They were valued employees.

What else is interesting to know:

In the Air Force as NCOIC of Facility Management for Aircraft Maintenance I researched and documented all the options to accommodate 37 additional large body aircraft at Travis AFB in 1986. To date all the new Facilities and Aircraft in this final plan are now in place, making it no longer a secret plan.

GREETING FOR CLASSMATES:

The last reunion I attended was that of my wife Kathy Ann Sanders (Terra Nova '67). All of her friends had passed away and it broke her heart. Kathy Ann departed April 8, 2006 from breast cancer and that broke my heart.

I would like to avoid sitting at an empty table by myself, so I made the care package for the raffle, in the hope that whoever wins it will come and see me.

Even if you don't win, you and yours are welcome to come to the NUT TREE and ride the train with me any Friday or Saturday. Please note that I am a cancer survivor, so this offer may expire. I HOPE TO SEE YOU SOON.
