

"DOT WHEELS"

Hereafter, cats, in the Terra Nova Tiger Tales, we will like to run a section about hopped up cars. Whose cars? Like your cars, man! Like it will be called "Dot Wheels" and just to prove that like Chivalry is not dead, ladies first!

Judi Phillips has like a very Chic little wagon. It's like a '77 heavy coupe. It's like not hopped up, at least not in the true sense of the word. It's like olive green, at least we'll call it olive green. Actually, it's just faded, but that's beside the point. Judi's little friend's speedometer's sick, I mean, like dad, it just plain doesn't work! The poor thing even has "running-boarditis" and like dad, in another couple of years that disease will like prove fatal!

And to like too off these diseases, it gets terribly sick to its poor little stomach if you take it around corners (which is almost impossible to avoid.) However, some people do find ways right after feeding time. It's like terribly allergic to anymore gas than two dollars worth and like the poor thing gets sick and well. re-regurgitates.

Judi's last famous words were "no I'm not attached! I'll sell, I'll sell." Any Buyers?

CONTRIBUTIONS?

Do you have any good stories you'd like published? Any news events you think important that we miss? A joke or two? Constructive suggestions or criticisms? Letters to the editor?

Bring them to the Art Room, and if they are appropriate the newspaper will be glad to print them.

Our staff will write some stories of course, but we will be more than grateful for contributions and suggestions for columns or other special features.

Make sure you have your name and grade on anything you leave with us.

TO SHARPEN - OR NOT?

A major question ran through the minds of various Terra Nova students during the first week or so of school--to sharpen, or not to sharpen? What had happen to the pencil sharpeners? Another necessary object missing during those first weeks were mirrors in the rest rooms.

Perhaps this wasn't all an accident. Perhaps there was a diabolical plot behind the reasons for these missing objects. Could the missing pencil sharpeners have been a subtle hint by teachers and administration to use pen and ink?

As for the case of the missing mirrors, could it be that they don't want us to be late for classes?

Don't worry if your job is small and your rewards are few. Remember that the mighty oak was once a nut like you.

WATCH OUT SENIORS, YOU'RE OUTNUMBERED! SCORE: 475-191

If you think that you were lost...
Look at these poor Freshmen!

by Clyde Wilson

Conditions have been difficult for all, during the first week of school here at Terra Nova. The first problem came with the issuing of the lockers. Of course, all lockers are conveniently located as far away from each class as possible, to add to the confusion.

The crowded condition of the halls has also made it hard to move around freely. Westmoor must have noticed a pleasant drop in population as we have 1329 students enrolled at Terra Nova this year. The largest class is the freshmen class and the smallest class is the senior class.

If looked at by a pessimistic Freshman, the number enrolled in each class follows a rather discouraging pattern, Freshmen then sophomores, approximately 100 more Freshmen than sophomores, approximately 100 more sophomores than juniors, and about 100 more juniors than seniors. This might lead someone to the false conclusion that there are about 100 "flunk outs" each year.

Another "stranger than fiction" happened this year. There is only one more boy than girl in the school! If someone would be kind enough to bring their sister to school with them it would be very much appreciated.

by the student body. Otherwise, some poor guy is going to be left out!

Just for interest, and for those who are statistically minded, the actual facts and figures are as follows:

Class	Boys	Girls	Total
Frosh	217	238	475
Soph	187	203	390
Junior	137	136	273
Senior	104	87	191
	665	664	1329

ANNUAL EDITORS ELECTED

The annual class of Terra Nova last week elected editors and assistant editors. These editors are:
Chief Editor-Rick Notley

Assistant Editor-Carolyn Schlosser

Administrator-Dan Daniloff
Sheri Robinson
Maureen Mcavin

Business Manager-Sonnie Miller

Photographer-Bill Dawson
Pat Bisio

Organ-Danny Powell
Wilma Malcomb
Jeanne Brown

Sports-Rod Kennedy
Arlene Campbell
Claire Van Orden

Features-Sheri Robinson
Pat Josephson
Carolyn Kaufman

Classes-Sandy Mattox
Paula Hickman
Barbara Brummer
Kathy Bedford

The editors are on a trial basis of 9 weeks. If the editors are doing their job they will hold their position the rest of the year. The name for the annual has not yet been decided by the staff.

LIBRARY READY NOW

Among the facilities offered at our still unfinished school is the outstanding library. Mr. Neuter assures us that when the library opens it will be sufficiently equipped to accommodate all students now attending Terra Nova. The library's inventory of 2,500 books will grow in the years ahead, he assures us.

As of the opening, the fiction and biography sections were complete, while the history and non-fiction will be filled in as the year progresses. The reference section, made up of 200 books will more than suffice the needs for any reports that will come up this early in the year.

The magazine section will be rather sparse at first. The earliest issue will be Sept. 1961. However, if any students have back issues of Time, Newsweek, Fortune, etc., it would be greatly appreciated if they would donate these to our library for reference use.

Open from 8 am. to 4 pm., the library will afford students 15 minutes in the morning and an hour and a quarter in the afternoon for studying.

Mr. Neuter has expressed the desire that our library be used by students in pursuit of class work only. However, if students who are making reports are in the need of assistance he will be available for help. Page Three
